} Docket No. 01-AFC-1

} APPLICANT'S STATUS REPORT,
NUMBER 8

The Rio Linda/Elverta Power Project Committee's September 18, 2001 **Committee Order Suspending Scheduling** directed the parties to continue to file monthly status reports until the Committee directs otherwise. The following is the Applicant's progress during the month of January 2002, since the filing of Applicant's Status Report Number 7.

Preliminary Determination of Compliance

The Applicant is continuing to work with the relevant administrative agencies to obtain a Preliminary Determination of Compliance. In particular the Applicant has continued to discuss emission reduction credit, or ERC, issues with the

Sacramento Metropolitan Air Quality Management District ("District") and the United States Environmental Protection Agency. On January 24, 2002, the District approved amendments to its new source review rule (Rule 202) which will provide increased flexibility in applying emission reductions credits and will allow Applicant to make better use of the ERCs in the package the Applicant submitted to the District.
